

The FTC is warning drivers about skimming scams at the pump. Skimmers are illegal card readers attached to payment terminals. These card readers grab data off a credit or debit card's magnetic strip without your knowledge. You won't know your information has been stolen until you get your statement or an overdraft notice. Make sure the gas pump panel is closed and doesn't show signs of tampering. Or pay inside rather than at the pump. Monitor your credit card and bank accounts regularly to spot unauthorized charges. If your credit card has been compromised, report it to your bank or card issuer. Federal law limits your liability if your credit, ATM, or debit card is lost or stolen, but your liability may depend on how quickly you report the loss or theft.
